

Arrowwaste

Your Local West Michigan Waste & Recycle Service

Arrow is ringing in the holiday season by supporting those we serve! We are donating time & resources to our partners at the local Be A Ruby organization as well as Aric's Mission For The Homeless, so our staff can feel like part of the solution while helping others! We enjoy being true to one of our company core values in this way ('Intentionally serving our neighbors & community w/ our resources!') - Please feel free to follow us on Facebook, Instagram & Linked In for service updates. As a business customer, you have your very own dispatch line for service that supports you best; To be directly connected to our commercial sales department, please contact Dispatch@Arrowwaste.Com or 616.719.5330 from 8AM-5PM. We're glad you're here.

WINTER IS COMING!

- When working with your snow plow vendors, please ensure to map the pushing of snow NOT to block your dumpster from pick-up.
- Your enclosure doors (& where they fully open to) should be 100% cleared & accessible for our drivers on pick-up day.
- Please have inclined areas, as well as corners, salted where applicable for safe access.

DID YOU KNOW?

THE CARDBOARD EDITION!

- Cardboard only dumpster services are potentially available for YOUR business!
- Contact your area sales representative today to discuss what cardboard pick-up options may be the best fit for your company.
- We have tips & tricks to educate those in your work-place, please reach out to us so we can provide them for your work family.

ENCLOSURES: A BUSINESS'S BESTFRIEND

- Direct, head-on access to your dumpster is the most helpful thing your business can give us.
- Enclosures are meant for your dumpster only, with a minimum of 2 feet on all sides. Please do not store other items inside your enclosure.
- Our drivers appreciate gate stops, which hold the enclosure's open while the container is being dumped into the truck - Some locations may require gate stops to be serviced.
